

Art No. HD0103

4K HDMI Repeater

All HDMI signals struggle going over long distances, but this LogiLink HD0103 HDMI repeater allows you to send 4k signals up to 25M and 1080p signals up to 30M!

Features:

- Compliant with HDMI high speed with Ethernet specification
- Supports 3.4Gbps TMDS data rate
- Supports 3D video and 4K2K extended resolution formats
- Adaptive receiver equalization up to 40dB to compensate for losses with long/cheap cables
- Integrate back-termination to improve output signal quality
- Incorporates an adaptive receiver equalizer, a clock and data recovery (CDR) circuit and a de-emphasis driver on each TMDS data channel
- The clock channel with a high performance Phase-Locked Loop (PLL) to re-generate low jitter clock output
- Extend 1080p signals up to 30M

Package Contents:

- 1 x HDMI Repeater
- 1 x User Manual

Packaging Information:

- Packing Dimension: mm
- Packing Weight: kg
- Carton Dimension: mm
- Carton Q'ty: pcs
- Carton Weight: kg
