

Intelligent Car charger 12-24V | 18W | 5V | 3A | USB Quick Charge 3.0

Product code: 51846

An intelligent car charger is an advanced product made of high quality materials. It combines modernity, stylish design and functionality. Equipped with advanced technologies (security) overvoltage, overload, short circuit and overheating, it is safe to use. Dual USB port car charger adapter allows you to charge two mobile devices simultaneously.

Technical data

Type	Car
Usage	tablet, smartphone and other mobile devices
Usable power	18 W
Input voltage	12V - 24V DC
Output voltage	5V / 9V / 12V
Output current	3A / 2A / 1.5A
Additional information	DC/DC car power supply intended for telecommunications equipment and for automatic data processing equipment and devices for these machines.
Additional information	Output parameters: USB QC 3.0: 5V/3A , 9V/2A, 12V/1.5A Qualcomm Quick Charge 3.0 Smart IC
Colour	Black
Warranty	24 months
Gross weight	0,04 kg
EAN code	5901878518466
